

Safety Training Center

This multi-faceted, state-of-the-art training facility spans a 4-acre campus which includes two indoor ranges for rifle and pistol qualifications, a 4-story commercial live fire burn prop with rappelling stations and residential live fire burn prop with backyard and cul-de-sac. Also onsite is a firearms computer simulation room, two training classrooms, one meeting room, a motor vehicle extrication area, a confined space training area, a trench rescue training area and a realistic streetscape for tactical scenarios. The facility has a large, concrete training ground to accommodate motorcycle and emergency vehicle operator courses.
